

Customer Segmentation Project - Python Code

```
import pandas as pd
from sklearn.cluster import KMeans
import matplotlib.pyplot as plt

data = {
    'CustomerID': [1,2,3,4,5,6,7,8,9,10],
    'AnnualIncome': [15,16,17,18,54,55,56,90,91,92],
    'SpendingScore': [39,81,6,77,40,76,6,94,3,72]
}

df = pd.DataFrame(data)

X = df[['AnnualIncome', 'SpendingScore']]

kmeans = KMeans(n_clusters=3, random_state=42)
df['Cluster'] = kmeans.fit_predict(X)

print(df)

plt.scatter(df['AnnualIncome'], df['SpendingScore'],
            c=df['Cluster'])

plt.xlabel("Annual Income")
plt.ylabel("Spending Score")
plt.title("Customer Segmentation")
plt.show()
```
